PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience specializing in React, Node.js, Express, and MongoDB. Proven track record in building scalable APIs, secure payment integrations, and high-performance frontends using TypeScript and Tailwind CSS. Expert in RESTful API design and cloud deployments, dedicated to delivering user-centric solutions that drive business growth.

TECHNICAL SKILLS

- * Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, EJS.
- * Frontend: React, Redux, GSAP (Animations), Tailwind CSS, Bootstrap.
- * Backend: Node.js, Express.js, JWT Authentication, Session Management, Cron Scheduling.
- * Databases: MongoDB (Schema Design, Aggregation), PostgreSQL.
- * DevOps & Tools: Git, GitHub, Render (CI/CD), Vercel, Postman, Paystack API, Twitter API.

PROFESSIONAL EXPERIENCE

Backend Developer | OMobile World | Aug 2025 – Oct 2025

- * Co-developed IP-hive, a patent filing and investment platform, increasing regional user coverage by over 50%.
- * Engineered core RESTful APIs and managed database architecture to streamline intellectual property processing for government offices.
- * Integrated Paystack payment gateways and webhooks, improving transaction processing efficiency by 30%.

LLM Code Reviewer | Codetrix Technologies | Nov 2022 – Mar 2023

- * Evaluated JavaScript code generated by Large Language Models for security vulnerabilities, efficiency, and accuracy.
- * Refined prompt engineering workflows and test case designs, leading to a measurable increase in AI code output quality.
- * Mentored junior reviewers and documented technical issues to optimize training datasets for model refinement.

Coding Instructor | Model Foundation | Nov 2021 – Jan 2022

- * Mentored 15+ junior developers on JavaScript and Node.js best practices and modern web architecture.
- * Architected "Central Market," an e-commerce teaching platform, to demonstrate full-stack integration and state management.

PROJECTS

Logisticore (Delivery & E-commerce Platform) | [[Link/GitHub](#)]

- * Built a logistics API enabling multi-carrier selection, reducing customer decision-making time by 40%.
- * Developed a React frontend displaying real-time quotes from 5+ companies, increasing user satisfaction by 30%.
- * Implemented SMS notifications via backend integration, ensuring real-time status updates with a <1% error rate.

Fischerbon LMS (AutoCAD Learning Management System) | [[Link/GitHub](#)]

- * Designed a robust Node.js/Express API for course management, user enrollment, and secure authentication.
- * Automated enrollment workflows by integrating Paystack API with secure webhook handling for transaction verification.
- * Optimized MongoDB indexing and schema design to prevent duplicate enrollments and speed up data queries.

EDUCATION

Bachelor of Science in Civil Engineering | Obafemi Awolowo University, Nigeria
Expected Graduation: May 2028

CERTIFICATIONS

- * JSMastery Pro: TypeScript, Node.js & Express, Frontend Development.
- * MongoDB University: MongoDB Schema Design and Aggregation.
